Notes

The following pictures were created by children in the Domestic Abuse Project's [http://www.mndap.org]Children's Program. All children in this program are child witnesses of violence committed by one adult household member (usually their father, step-father, or mother's boyfriend) against their mother. Each file is rather large (35K-95K) and be prepared to wait as each image loads into your computer. Click on the arrow below to move to the first piece of artwork. If you are interested in reproducing these pictures in any manner, please contact danders@mndap.org [mailto:danders@mndap.org]at DAP.
