Part of a Minnesota statewide project to develop and enhance the capacity of rural and tribal programs

Written in collaboration with representatives of
Minnesota Coalition for Battered Women
Minnesota Center for Crime Victim Services
Minnesota Department of Human Services
Minnesota Department of Children, Families & Learning

Funded by
A grant provided under the Rural Domestic Violence and Child Victimization Enforcement Grant Program, Violence Against Women Office, Office of Justice Programs, US Department of Justice, to the Minnesota Center for Crime Victim Services, Minnesota Department of Public Safety
The curriculum is dedicated to the 111 women, 51 children, and 7 friends or family members who died in Minnesota as a result of domestic violence during the time we worked on this project from 1999 through 2002.

In addition, we dedicate this to the following four people who were influential and supportive advocates for battered women and their children; without them this project would not have been possible:

- Denise Parrish
- Susan Schechter
- Senator Paul and Sheila Wellstone

May the memory of their lives, wisdom, dedication, and compassion give us strength as we continue the struggle to make Minnesota and the nation safer for everyone.
